

FIFA 22 Players ratings prediction

By using Linear Regression

Faisal Alasgah
Omran Fallatah

Introduction

- What is our project
- Our purpose
- What will it predict

Approach and methodology

- Web scraping the data
- Cleaning and handling the data
- Building the model

Our tools

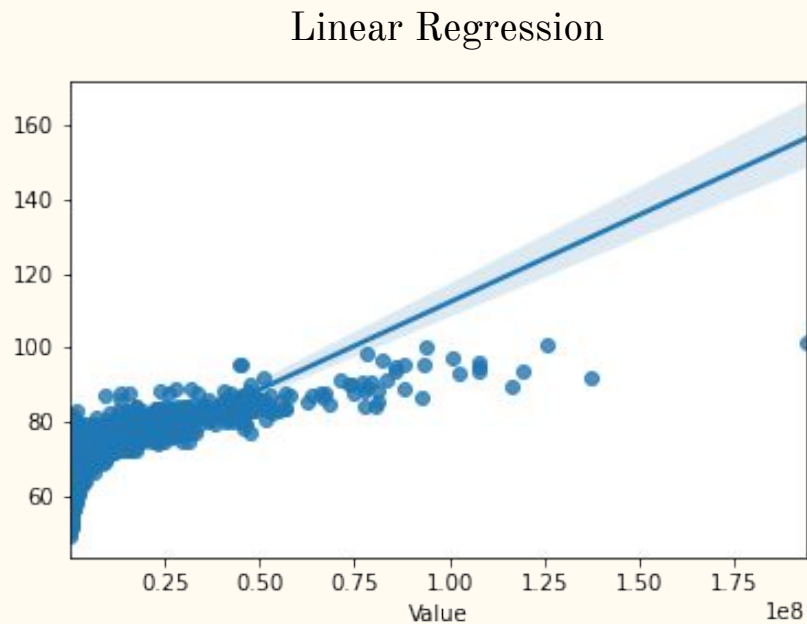

- Selenium
- numpy and pandas
- seaborn and matplotlib
- sklearn

Result

$R^2=0.889/0.892$ Linear Regression

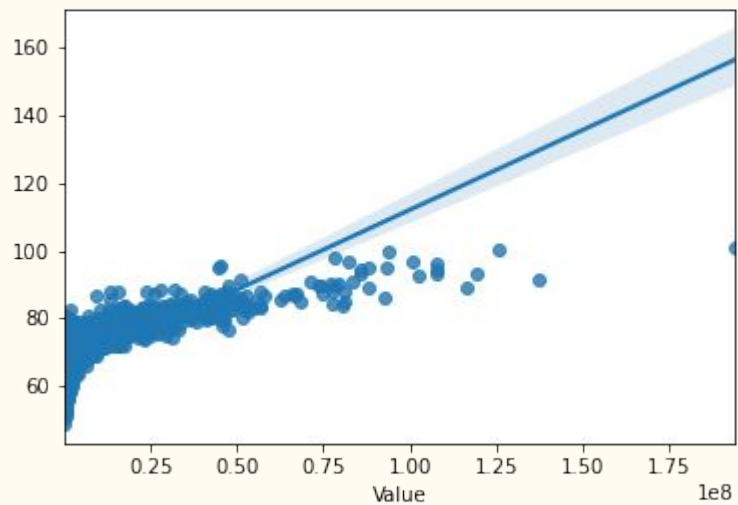

$R^2=0.889/0.891$ Lasso

$R^2=0.889/0.892$ Ridge

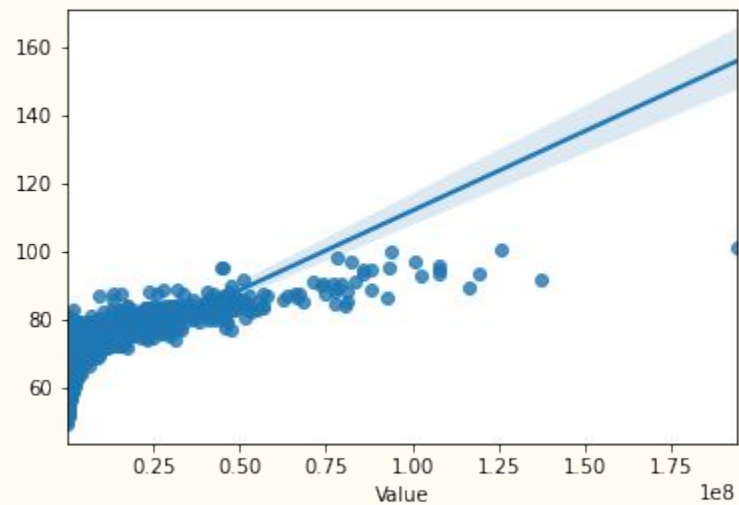

Result

Lasso

Ridge
